S U M M A R Y

Experienced React Developer with over 1 year of expertise in building high-performance, scalable web applications. Skilled at transforming complex requirements into intuitive, user-friendly interfaces through clean, maintainable code. Strong collaborator with cross-functional teams, driving innovation and optimizing performance to deliver seamless digital experiences. Passionate about adopting cutting-edge front-end technologies and industry best practices to craft robust, future-proof solutions.

E X P E R I E N C E

Keventers

React Developer 04/2023 - Present
Istreams-erp-solutions
Built highly scalable, interactive web applications using modern frontend technologies React, improving user engagement by 20%.
Partnered with product managers, designers, and backend teams to deliver 15+ new features within 6 months, ensuring seamless UI/UX integration.
Optimized 10+ frontend applications, reducing load times and improving performance by 30% through code splitting, lazy loading, and efficient state management.
Automated CI/CD pipelines for frontend deployments, cutting release cycle time by 25% using tools like GitHub Actions and Netlify.

Projects

- DMS (Database Management System)
- Developed an AI-driven invoice booking system with modern UI, enabling users to upload documents, preview extracted data, and auto-fill forms—reducing manual entry by 89% while ensuring seamless validation and editing.
 - Security-focused version: secure file uploads (PDF/PNG/DOCX/JPG/XLSX), AI-powered data extraction with 90% accuracy
 - Built interactive dashboards with Shadcn UI charts and real-time analytics, improving data visualization load speeds by 50% compared to legacy solutions.
 - Integrated a WhatsApp-style AI chatbot for user support, boosting engagement rates by 40% through seamless in-app assistance
 - Created a drag-and-drop timesheet system with resizable task modules, enhancing scheduling efficiency by 70% for 24/7 workforce management.
 - Developed a leave management module with streamlined workflows, cutting approval delays by 80% through automated status tracking.
- CRM (Customer Relationship Management)
- Designed a dynamic RFQ (Request for Quotation) system with a dual-table interface, accelerating vendor and material comparisons for 60% faster quote generation
 - Designed a fully responsive UI adaptable across mobile, tablet, laptop, resulting in a 90% smoother and more consistent user experience across devices.
 - Enhanced rendering performance by applying useCallback and useMemo to prevent unnecessary re-renders and improve component efficiency.

EDUCATION

ELECTRONICS AND COMMUNICATION ENGINEERING KIT - KALAI GNAR KARUNANIDHI INSTITUTE OF TECHNOLOGY - BACHELOR OF ENGINEERING 7.456 CGPA	03/2020 - 02/2023
COMPUTER SCIENCE SRI RAMAKRISHNA VIDHAYALA MATRIC HR SEC SCHOOL - HSC 66%	02/2018 - 08/2019
SRI RAMAKRISHNA VIDHAYALA MATRIC HR SEC SCHOOL - SSLC 88%	03/2017 - 09/2018

SKILLS

React JS (v19+)	Expert	CSS3	Expert
JavaScript (ES6+)	Expert	Responsive Designs	Advanced
Bootstrap 5	Expert	Netlify	Intermediate
Tailwind CSS	Advanced	GitHub	Advanced
HTML5	Expert
